2026
THE PROS' EQUIPMENT

We have been successfully producing professional military and police equipment for almost three decades. Our focus is always on professional users who need the perfect equipment for their work. We draw our ideas for new developments from discussions with professional users—as is the case with the new products in the 2026 collection.

For the 2026 season, Tasmanian Tiger is introducing the fourth size of its basic mission backpack TT Base Pack 60 FO and the modular 30-liter combat backpack TT Modular Pack 30 SL with a size-adjustable carrying system.

The ZP series, which allows a plate carrier to be fitted with different modules using a zipper system, is complemented by the simple TT Turtle Pack ZP equipment backpack and the individually configurable TT SRPP Grid Panel ZP Tegriss® panel.

Tasmanian Tiger is also presenting the TT Modular Chest Rig 4xM4, a light-weight chest rig with the matching TT Modular Chest Rig Pack.

The Medic line is being supplemented by another tactical medic backpack, the TT First Responder Move On 50. Its configuration makes it suitable for vehicle-based operations.

For security and law enforcement personnel, the TT Security Pro Rig is a low-profile harness, and the TT Security Pro Holster is an EDC equipment holster with perfectly fitting equipment.

The modular escape and survival backpack TT Modular Grab Pack 30 and three weapon carrying bags for long, medium-range, and short weapons round off the complete 2026 range.

All products are precisely tailored to the needs of users and impress with their excellent product quality, which we can reliably guarantee by manufacturing all Tasmanian Tiger products in our own factory.

Tasmanian Tiger. We equip the pros.

BACKPACKS

TASMANIAN TIGER – COMPETENCE IN CARRYING

Tasmanian Tiger has a long-standing experience in backpack construction and proven expertise in high-performance backpack carrying systems.

When developing our backpacks, we attach great importance on ergonomic design, durable materials, functionality, and a perfect fit. For long missions with a heavy load, the most important thing is the comfort of the backpack. That is why, in addition to the selection of the right pack sack, the selection of the right carrying system plays a central role.

The heart of a Tasmanian Tiger carrying system revolves around an internal frame structure that transfers the weight of the pack sack to the hip via the hip belt. This transfer assures that pressure is relieved from the shoulders and spine. It is a basic fundamental that the heavier the load the more stable the support system must be.

However, the load transmission should not be completely stiff, but must remain flexible enough to ensure that even in rough terrain, the user can be agile in his/her movements, especially when traversing large obstacles. For perfect load transfer, the carrying system must also function for various sized individuals. To ensure this, most of Tasmanian Tiger carrying systems are adjustable in size and can be custom fit to a wide range of back lengths.

Because a backpack has to fit the application, its respective requirements, and the user, we have developed different carrying systems for different backpack models, shown on the following pages.

Tasmanian Tiger – carrying systems for every mission.

X1-SYSTEM

The size-adjustable high-end X1 Carrying System was specially developed for high loads over 40 kg. Particular attention was paid to the adjustability, ergonomics and ventilation of the system. Durable materials, multi-layered structures and reinforcements in the right places make the system stable and durable.

+ Lid is height-adjustable

Load control straps allow for precise adjustment through 2 positions +

+ Padded shoulder straps are ergonomically shaped and can be adjusted in height

Concave shaped and chambered back padding ensures a perfect fit and good ventilation of the back +

+ 2 ergonomically shaped, crossed aluminium bars provide stability and transfer the load to the hip belt

Anatomically shaped aluminum bar in the lumbar area helps in optimal adjustment +

Lumbar pad with rubberized insert prevents slipping of the backpack +

+ Anatomically fitting hip belt consists of multi-layer padded hip fins with PE reinforcement plates and a lumbar pad

Pull-forward hip belt is combined with classic front adjustment +

+ **X1-Plus System** has a removable hip belt

coyote brown

st.g. olive & olive

titan grey

multicam

black

V2-SYSTEM

The size-adjustable V2 Carrying System was developed for medium to high loads up to 40 kg. A combination of aluminum and fiberglass bars results in an excellent balance of efficiency and flexibility in load transmission with low own weight. Channels on the back padding ensure good air circulation.

V2 PLUS-SYSTEM

The size-adjustable V2 Plus Carrying System was developed for medium to high loads up to 40 kg. Backpacks with this system offer great adjustability of the back length and can be worn even with fully loaded vests and chest rigs due to the detachable hip belt.

Load control straps allow for precise adjustment through 2 positions 

2 aluminum rods arranged into an implied V direct the load into the reinforced hip belt 

Hip belt, which runs under the lumbar pad, can be removed 

Pull-forward hip belt is combined with classic front adjustment 

 Lid is height-adjustable

 Wide, ergonomically shaped shoulder straps can be adjusted in height

 Concave-shaped and chambered back padding provides optimal contact with the backpack and good ventilation of the back

 Lumbar pad with rubberized insert prevents slipping of the backpack

 Conically shaped hip fins are multilayer padded and reinforced with PE plate

Y2-SYSTEM

The size-adjustable Y2 Carrying System was developed for light loads. Thanks to its design, it offers a wide range of back length adjustability and is suitable for both long and very short backs. Backpacks with this system are mastered with SL (=short to long) in the product name.

Ergonomically padded shoulder straps can be adjusted +

Y-shaped system is easily adjustable in height +

Hip belt can be replaced +

+ Removable PP back plate with an aluminum rail, that can be individually adjusted to the back, ensures stability and high wearing comfort

+ Shoulder straps are equipped with a quick-release system

+ Back padding is ergonomically shaped

TT MIL OPS PACK 80+24

Item number: 7324
Color: 040 black, 331 olive, 346 coyote brown

Color: 331 olive, 346 coyote brown
Size / Volume: 84 x 35 x 22 cm / 80 l
Weight: 3,25 kg
Material: CORDURA® 700 den

Fully-fledged combat backpack for several days in the field. There is a large, variable volume compression flap on the front for helmets etc. The MOLLE system on the sides is used to attach additional pockets.

[1] V2 Carrying System [2] Packsack with snow guard [3] Removable section between main and bottom compartment [4] Fixation for hiking poles or ice axes [5] Height-adjustable chest belt [6] Pull-forward hip belt, combined with classic front adjustment [7] Side compression straps [8] Compression around perimeter of base [9] Variable volume compression flap e.g. to attach a helmet [10] Handle on front and back [11] Detachable lid, divided into 3 [12] 2 ports for drinking tubes on the lid [13] Rain cover [14] Hydration system compatible [15] Side pockets [16] Sides with MOLLE system: Width: 4 Molle loops, length: 6 Molle loops

TT RAID PACK MK III

Item number: 7711
Color: 040 black, 331 olive, 346 coyote brown
Size / Volume: 65 x 32 x 24 cm / 52 l (48 l + 2x 2 l)
Weight: 2,90 kg
Material: CORDURA® 700 den

TT RAID PACK MK III IRR

Item number: 7209
Color: 332 stone grey olive
Size / Volume: 65 x 32 x 24 cm / 52 l (48 l + 2x 2 l)
Weight: 2,90 kg
Material: CORDURA® 700 den IRR

Classic military backpack with a total capacity of 52 liters and V2 Plus Carrying System. The TT Raid Pack MKIII has a main compartment with a volume of 48 liters and 2 fixed side pockets with a volume of 2 liters each. MOLLE on the front, the lid, the side pockets and on the hip belt allows for individual extension. The V2 Plus Carrying System of the backpack is designed for a weight of up to approx. 40 kilograms and offers great variability when adjusting the back length. Due to the removable hip belt, the backpack can also be carried with fully equipped chest rigs and vests. The hip belt can be used separately as a Warrior Belt.

[1] V2 Plus Carrying System [2] Divided main and bottom compartments [3] Fixation for hiking poles or ice axes [4] Height-adjustable chest belt [5] Pull-forward hip belt, combined with classic front adjustment ▶

[6] Side compression straps [7] Compression around perimeter of base [8] Handles at sides [9] Lid with gear loops [10] Easy-access pocket on top of lid [11] Hydration system compatible [12] Stitched bellow pocket with water drain [13] Gear loops [14] Document storage pocket on the inside of the lid [15] Capacity: main backpack 48 l // side pockets each 2 l [16] Antenna ports into the main compartment [17] Hip belt can be used separately as a Warrior Belt [18] Front and sides with MOLLE system. Sides: Width: 4 Molle loops, length: 4 Molle loops [19] Lid with MOLLE system: Width: 6 Molle loops, length: 4 Molle loops

The items are equipped with the same features. Item 7209 is made of Cordura® 700 den with IRR treatment.

TT MODULAR TROOPER PACK

Item number: 7263
Color: 040 black, 331 olive, 346 coyote brown
Size / Volume: 62 x 34 x 19 cm / 55 l
Weight: 2,75 kg
Material: CORDURA® 700 den

TT MODULAR TROOPER PACK MC

Item number: 7264
Color: 394 multicam
Size / Volume: 62 x 34 x 19 cm / 55 l
Weight: 2,65 kg
Material: CORDURA® 500 den

Universal military backpack with 2 front pockets and the V2 Plus Carrying System. Based on the predecessor model, the TT Modular Trooper Pack offers an optimized arrangement and new functional features. The main compartment opens completely, and the special zipper routing makes it possible to use the pack as a top loader. The back panels of the front and main compartment feature MOLLE hook-and-loop for customized loading, and both front pockets have zipper mesh pouches to organize your gear. Laser-cut MOLLE on the front and sides allow you to add pouches or extra gear as you see fit. The backpack has an integrated rain cover and a removable hip belt that can also be used as a Warrior Belt. The carrying system can be adjusted to different back lengths.

[2] V2 Plus Carrying System [3] Pull-forward hip belt, combined with classic front adjustment [4] Side compression [5] Durable, reinforced handle [6] Front and top opening lid with access to main compartment [7] Hydration system compatible [8] Integrated rain cover inside the bottom compartment [9] Side pockets [10] Gear loops on the front [11] Antenna ports into the main compartment [12] Removable hip belt, can be used separately as a Warrior Belt [13] Laser-cut MOLLE system [14] MOLLE hook-and-loop on the inside for limitless modularity [15] Front and sides with MOLLE system. Sides: Width: 3 Molle loops, length: 6 Molle loops [16] 2 front pockets with organizer, mesh pockets and MOLLE hook-and-loop fastener

[1] Volume main backpack 45 l, upper front pocket 2 l, lower front pocket 8 l ▶

The items are equipped with the same features. Item 7264 is made of Cordura® 500 den.

TT BASE PACK 75

Item number: 7934
Color: 040 black, 331 olive, 346 coyote brown
Size / Volume: 77 x 33 x 26 cm / 75 l
Weight: 3,12 kg
Material: CORDURA® 700 den

Basic mission backpack with 75 liter volume and modular expansion options. The volume of the TT Base Pack 75 can be expanded up to 90 liters by removing the lid and using the roll-top snow guard. The shaped head recess ensures freedom of movement when heavily loaded. The backpack is equipped with MOLLE on all important attachment surfaces.

[1] V2 Carrying System [2] Preformed head cavity [3] Divided main and bottom compartments [4] Fixation for hiking poles or ice axes [5] Roll-top snow guard (without lid) can be used in 2 locking positions [6] Volume expandable from 75 l to 90 l through roll-top snow guard [7] Height-adjustable chest belt [8] Pull-forward hip belt, combined with classic front adjustment [9] Side compression straps [10] Compression ▶

TT BASE PACK 75 IRR

Item number: 7935
Color: 332 stone grey olive

Long-range mission backpack with modular expansion options. The TT Base Pack 60 FO is the 4th size of the basic mission pack from Tasmanian Tiger. As a special feature, it has a large front opening (FO = front opening). The lid is height-adjustable and removable; when used without the lid, the backpack is closed with the rolled snow guard. The volume can thus be increased by approx. 15 liters. The front and sides are fitted with MOLLE, the hip belt can be removed and used separately as a Warrior Belt. The carrying system is based on the V2 Plus configuration.

TT BASE CARRIER PACK 65

Item number: 7374
Color: 331 olive
Size / Volume: 70 x 30 x 24 cm / 65 l
Weight: 1,16 kg
Material: CORDURA® 700 den / 420 HD Nylon FD

Flexible „soft“ load carrier for transporting heavy loads. The TT Base Carrier features a high-performance internal backpack carrying system with three-dimensionally shaped, removable hip belt. The carrier platform features a MOLLE system as well as side loops for various attachments. The TT Base Carrier can be flexibly built up with modular elements, for example with the TT Base Carrier Flap (item 7332) or the TT Front-Side Pouch SET (item 7391). The TT Base Carrier Pack (item 7374) completes the load carrier to a full-fledged backpack. Carrying capacity up to 55 kg.

[1] X1 Plus Carrying System [2] Load control straps [3] Height-adjustable chest belt [4] Side compression straps [5] Internal reinforced frame system [6] Loop system for various fastening systems [7] Compatible with TT Base Carrier Pack (item 7374), TT Front-Side Pouch 16 Set (item 7391), TT Base Carrier Flap (item 7232)

The TT Base Carrier Pack complements the TT Base Carrier to a full-fledged backpack and is attached to the load carrier with hooks. The pack sack pulls open completely for easy operation. In addition, for use with-out the load carrier, it has attachment options on the back for attaching the shoulder and waist belt of the TT Base Carrier. [1] Compression straps [2] Handle [3] Main compartment with lockable slider [4] Antenna ports into the main compartment [5] 65l CORDURA® pack sack for the TT Base Carrier (item 7330) [6] Possibility to mount the shoulder straps and the waist belt of the TT Base Carrier (item 7330) [7] Can be attached to the TT Base Carrier (item 7330) with hooks and compression straps [8] Laser-cut MOLLE system [9] MOLLE hook-and-loop on the inside for limitless modularity [10] Front and sides with MOLLE system. Sides: Width: 4 Molle loops, length: 3 / 2 Molle loops [11] Lid with MOLLE system: Width: 6 Molle loops, length: 3 Molle loops

TT BASE CARRIER FLAP

Item number: 7332
Color: 331 olive
Size: 75 x 31 cm
Weight: 400 g
Material: CORDURA® 700 den, T-Square RIP

Carrying flap for the TT Base Carrier. The TT Base Carrier Flap is a precisely fitting supplementary module for the TT Base Carrier (item 7330). The flap is attached to the carrier platform with buckles and hooks.

- 1] Carrying flap made of CORDURA® laminate, fastening with hook system
 2] Can be fixed to the TT Base Carrier (item 7330) with hooks

TT FRONT-SIDE POUCH 16 (PAIR)

Item number: 7391
Color: 331 olive
Size / Volume: 60 x 20 x 17 cm, 23 l + 23 l
Weight: 810 g (Pair)
Material: 420 HD Nylon FD / CORDURA® 700 den

Large front or side pouch set for backpacks. The TT Front-Side Pouch 16 Set, each pouch with a volume of 23 liters, offers attachment options for use as front pouches as well as right or left side pouches on the backpack. Especially suitable for the TT Base Carrier (item 7330).

- [1] Handles [2] Can be opened completely by double zippers [3] Daisy chain on the front [4] Sold in pairs [5] Can be attached to the TT Base Carrier (item 7330) with hooks and compressions straps

TT MISSION PACK MKII | MC | IRR

coyote brown

Proven combat backpack with a capacity of 37 liters, 2 main compartments and several inner pockets. The TT Mission Pack MKII offers several inner pockets and also features MOLLE hook-and-loop lining in the main compartment for individual loading or modular extensions. On the sides and the flat zip front pocket the backpack is equipped with MOLLE in laser-cut design. A side zip pocket, accessible from the outside, is provided for documents. The backpack has three tube or antenna openings in the main compartments, so that a drinking bladder can also be accommodated. A rain cover is stowed in the bottom compartment. The hip wings with zip pockets are removable.

[1] Padded Back Carrying System [2] Padded hip fins with zippered pockets, removable with hook-and-loop [3] Durable, reinforced handle [4] Main pack sack equipped with emergency carrying handle [5] Hydration system compatible [6] 2 large main compartments [7] Integrated rain cover inside the bottom compartment [8] Subdivided into 7 separate pockets [9] Detachable rear panel with aluminium rail (can be shaped individually) [10] 3 hose or antenna outlets on the main and front compartments [11] Laser-cut MOLLE system [12] MOLLE hook-and-loop on the inside for limitless modularity [13] Front and sides with MOLLE system. TT MODULAR COMBAT PACK | MC | IRR

olive

Universal small combat backpack with 2 front pockets and elastic side pockets. Based on the predecessor model, the TT Modular Combat Pack has a clean new look, optimized features and MOLLE hook-and-loop in the main compartment for customized modular add-ons. Laser-cut MOLLE on the front and sides mean you can combine it with other gear. With a main compartment that opens completely and the special zipper routing it's possible to use the pack as a top loader. The shoulder straps can be adjusted in length in order to wear the backpack over vests.

[1] Padded Back Carrying System [2] Ergonomically padded back with aluminum support elements [3] Ergonomically formed, padded shoulder straps [4] Padded hip fins with zippered pockets, removable with hook-and-loop [5] Side compression [6] Hydration system compatible [7] Volume: main compartment 17 l, upper front pocket 2 l, lower front pocket 3 l [8] Side pockets made of an elastic material [9] Small mesh pockets inside, for storage of small parts such as batteries, etc [10] 2 patch front pockets with zippered compartments [11] Hook-and-loop surface on the front (fleece) [12] Detachable rear panel with aluminium rail (can be shaped individually) [13] Laser-cut MOLLE system [14] MOLLE hook-and-loop on the inside for limitless modularity [15] Front and sides with MOLLE system. Sides: Width: 3 Molle loops, length: 4 Molle loops [16] Length-adjustable shoulder straps make carrying large body armour possible

TT SENTINEL 35 WP

Item number: 7894
Color: 040 black, 331 olive
Size / Volume: 58 x 27 x 18 cm / 35 l
Weight: 1,54 kg
Material: CORDURA® 500 den

Waterproof mission backpack with 35 liters volume. The TT Sentinel 35 WP is suitable for light, if necessary also voluminous equipment. It has a roll-top closure and can be compressed by completely circumferential straps if necessary. MOLLE in laser-cut design on the sides allows for customization. Daisy chains on the front can be used to hold additional gear.

[1] Padded Back Carrying System [2] Roll-top with 2 closure options, upwards or sideways [3] 2 compression straps around the perimeter of the pack [4] Material and sealed seams waterproof up to 10000 mm [5] IP64 tested (dustproof and protected against splashing water on all sides) [6] Strap system to hold additional equipment [7] Laser-cut MOLLE system [8] Sides with MOLLE system: Width: 2 Molle loops, length: 4 Molle loops

TT ESCAPE PACK 20 LT

Item number: 8775
Color: 021 titan grey, 331 olive
Size / Volume: 49 x 27 x 12 cm / 20 l
Weight: 370 g
Material: 70D Nylon Rip FD

Lightweight folding backpack with 20 liter volume. The TT Escape Pack 20 LT can be stowed small and flat in its own front pocket. Due to its low weight and packing volume, it is an ideal complement to your equipment as an additional backpack.

[1] Mesh shoulder straps [2] Height-adjustable chest belt [3] Removable hip webbing [4] Compression straps [5] Handle [6] Mesh pockets on sides [7] Front compartment with zipper [8] Daisy chain on the front [9] Lightweight, easy-to-use and rugged materials [10] Stowable in the front pocket [11] X-shaped hook-and-loop patch (fleece) on the front

TT DUFFEL 45 / 65

Item number: 8707 / 7978
Color: 040 black, 331 olive, 346 coyote brown
Size / Volume: 58 x 31 x 24 cm / 45 l / 70 x 36 x 28 cm / 65 l
Weight: 1,20 kg / 1,42 kg
Material: CORDURA® 700 den

Robust equipment bag with 45 / 65 liters volume. The TT Duffel 45 / 65 can be comfortably loaded due to the large opening into the main compartment. The main compartment is lockable. If necessary, the entire bag can be compressed, and it has removable shoulder straps that can be stored in the lid. MOLLE on the outside allows for individual extensions.

[1] Ergonomically formed, padded shoulder straps [2] Removable shoulder carrying system, shoulder straps are stowed in the lid [3] Detachable compression straps [4] Handles on all 4 sides [5] Lockable zipper slider ▶

TT DUFFEL 45 / 65 MC

TT MODULAR GUNNERS PACK | MC | IRR

olive

Light, tactical deployment backpack for modular use. The materials used for this deployment backpack are very light, making it super easy to handle. It has a flat main compartment that is hydration system compatible, and the back panel is fitted with MOLLE hook-and-loop for customizable loading of your gear. The upper front pocket of the backpack is a flip-top behind which you can attach a magazine holder (three M4 magazines or 4 pistol / MP7 magazines, included with purchase). Both middle front pockets are removable and behind each is a MOLLE hook-and-loop surface. Both the TT Tac Pouch 12 (item 7862) or the TT 2 SGL Backup Mag Pouch M4 (item 7811) can be attached to the lower front pocket. The backpack has a MOLLE reverse system on the back so you can integrate it into a plate carrier. You can also use an included adapter to attach it to plate carriers.

[1] Hydration system compatible [2] Main compartment opens out completely [3] 1 narrow main compartment [4] Hook-and-loop strips for name tag [5] Capacity: main compartment 9 l, upper front pocket 2 l, middle front pockets each 1 l, lower front pocket 1 l [6] Removable bungee cord compression [7] Weight backpack without shoulder straps: 735 g [8] Interchangeable magazine inserts for 3 x M4 (PMAG) magazines (50 g), 4 x pistol / MP7 magazines (40 g) [9] MOLLE reverse system [10] Laser-cut MOLLE system [11] MOLLE hook-and-loop on the inside for limitless modularity [12] MOLLE system on the upper front pocket [13] Removable center pockets, underneath MOLLE hook-and-loop [14] Combinable with TT Plate Carrier QR LC as rear section

TT MEDIC ASSAULT PACK L MKII

Item number: 7965
Color: 040 black, 331 olive, 346 coyote brown
Size / Volume: 46 x 28 x 10 cm / 19 l
Weight: 1,05 kg (1,65 kg)
Material: CORDURA® 700 den

Large medic backpack with intelligent and clear interior divider system. The TT Medic Assault Pack L MKII is the third size of the tried and tested medic backpack from Tasmanian Tiger. The backpack is about 4 cm (1 MOLLE strip) deeper than the 2 smaller models. It has laser-cut MOLLE on the front and sides. The bottom has attachments for a rescue blanket. The light, padded shoulder straps can be removed and stowed in a pocket on the back. The backpack can also be adapted to plate carriers and vests using the straps supplied with it. Stowable carrying handles help to quickly transport it in emergencies.

[1] Removable shoulder carrying system that can be stored in the back if needed [2] Large handle for carrying when open [3] Internal variable fixation points to store medical equipment [4] Scissors bag ▶

TT MEDIC ASSAULT PACK L MKII IRR

TT GEAR PACK ZP*

Item number: 8809
Color: 040 black, 331 olive, 346 coyote brown
Size: 35 x 23 x 10 cm
Weight: 1,27 kg
Material: CORDURA® 700 den

Breacher pack for large tools from the ZP series by Tasmanian Tiger. The TT Gear Pack ZP is designed for the TT Plate Carrier QR LC ZP and is attached via side zippers. 2 tool tubes with MOLLE are attached to the reinforced base plate, the fold-out compartment for a bolt cutter is hooked onto the plate and has insertion options for breach pens on the sides. The base plate can also be used separately or only with the tubes. The TT Gear Pack ZP can also be mounted on other plate carriers on the market with the appropriate zipper length and width. In addition, the zipper MOLLE strip supplied makes it possible to attach it to plate carriers with the same MOLLE scheme as article 7500. An additional adapter is included for attachment to classic MOLLE straps. ▶

TT TAC POUCH 18 ANFIBIA

Item number: 7103
Color: 040 black, 331 olive, 346 coyote brown
Size: 31 x 18 x 7 cm / 5 l
Weight: 275 g
Material: TPU 420 den Nylon, T-Stretch

Lightweight accessory pouch made of seawater resistant TPU 420 den Nylon with side panels made of elastic material. The bottom of the pouch is made of mesh material for quick water drainage, the elastic side compression can be removed. The pouch can be mounted on all TT plate carriers and is particularly compatible with the TT Plate Carrier QR SK anfibia MKII.

- [1] Elastic side compression, detachable [2] Hook-and-loop patch on the frontside (loop) [3] Low profile [4] To be used for all TT Plate Carriers [5] Mesh bottom for fast water drainage [6] Weight gain, weighed 20 sec after collection at soak: 81 g (~ 30 %) [7] Skeletonized, waterproof material [8] MOLLE reverse system [9] Requires 4 MOLLE loops [10] Laser-cut MOLLE system

TT DUMP POUCH ANFIBIA

Item number: 7733
Color: 040 black, 331 olive, 346 coyote brown
Size: 32 x 21 x 9 cm
Weight: 145 g
Material: 420 HD Nylon FD, Heavy Mesh

Small foldable depot bag for empty magazines or other utensils. With mesh bottom for quick water drainage. Inside is a mounting option for a M4 magazine pouch or 2 pistol magazines. Operation is possible even when the bag is folded.

- [1] Small foldable [2] Main compartment with toggled string closure [3] String with cord lock [4] 1-hand operation with folding side parts [5] Mesh bottom for fast water drainage [6] Fastening possibility inside for 1 magazine pouch (M4, G36 etc.) or 2 pistol magazine pouches [7] Weight gain, weighed 20 sec after collection at soak: 73 g (~ 50%). [8] Size suitable for 5 x G36 double magazines [9] MOLLE reverse system [10] Requires 2 MOLLE loops

The products of the **Anfibia Range** feature skeletonized construction, seawater resistant materials and drain holes or the use of mesh material for rapid water drainage.

TT MOLLE HYP BELT S/M/L/XL

Item number: 7725

Color: 040 black, 331 olive, 346 coyote brown

Size / S: 85-140 cm / 225 g, M: 95-145 cm / 230 g,

Weight: L: 105-150 cm / 235 g, XL: 115-160 cm / 245 g

Material: TPU 420 den Nylon / Nylon Webbing

Very light, flat, skeletized Warrior Belt made of TPU 420 den Nylon. Has hook-and-loop panels on the inside for attaching an inner belt. The hook-and-loop panels can also be covered and the inner belt can be exchanged. The special design means the belt doesn't absorb much water at all.

[1] 4 sizes [2] Covered inner hook-and-loop for fastening to a hook-and-loop underbelt [3] Fits to TT Plate Carrier QR SK anfibia

TT SGL MAG POUCH MCL ANFIBIA

Item number: 7267
Color: 040 black, 331 olive, 346 coyote brown
Size: 11 x 7,5 x 2,5 cm
Weight: 70 g
Material: TPU 420 den Nylon

Light magazine pouch made of waterproof material. The waterproof and slip-proof pouch has large discharge openings. Fits G36 PMAG, M4, STG.

[1] Bungee cord on the side with cord stopper on the backside [2] Single magazine capacity [3] For use with M4 / G36 PMAG / Sig / AR15 / Steyr AUG / Sig 55X etc. [4] Skeletonized, waterproof material [5] Skeletonization enables MOLLE attachment for the optional attachment of additional magazine pouches [6] Weight gain, weighed 15 sec after collection at soak: 7 g (~10%). [7] MOLLE reverse system [8] Requires 2 MOLLE loops

TT DBL MAG POUCH MCL ANFIBIA

Item number: 7397
Color: 040 black, 331 olive, 346 coyote brown
Size: 11 x 7,5 x 4,5 cm
Weight: 105 g
Material: TPU 420 den Nylon

Lightweight double magazine pouch made of seawater resistant TPU 420 den Nylon. The pouch has large drain holes and is non-slip.

[1] Bungee cord on the side with cord stopper on the backside [2] Capacity: 2 magazines [3] For use with M4 / G36 PMAG / Sig / AR15 / Steyr AUG / Sig 55X etc. [4] Skeletonized, waterproof material [5] Skeletonization enables MOLLE attachment for the optional attachment of additional magazine pouches [6] Weight gain, weighed 20 sec after collection at soak: 7 g (~ 7 %). [7] MOLLE reverse system [8] Requires 2 MOLLE loops

TT CARRIER MAG PANEL ANFIBIA

Item number: 7531
Color: 040 black, 331 olive, 346 coyote brown
Size: 24 x 14 x 3 cm
Weight: 245 g
Material: TPU 420 den Nylon

Replacement front panel in skeletonized design. Made of seawater resistant TPU 420 den Nylon. Mountable on various TT plate carriers and specially designed for the TT Plate Carrier QR SK anfibia MKII.

[1] Hook-and-loop surface (hook) on the back [2] For use with M4 / G36 PMAG / Sig / AR15 / Steyr AUG / Sig 55X etc. [3] Skeletonized, waterproof material [4] Skeletonization enables MOLLE attachment for the optional attachment of additional magazine pouches [5] Weight gain, weighed 20 sec after collection at soak: 47 g (~ 19%). [6] Laser-cut MOLLE system [7] Attachment with removable MOLLE buckles and hook-and-loop closure [8] Hook-and-loop panel for mounting on TT Plate Carrier QR SK anfibia included [9] Fits TT Plate Carrier QR SK anfibia MKII, TT Plate Carrier MKIV, TT Plate Carrier LC, TT Modular Gunners Pack and can be hung on the front side of the TT Survival Pack

TT SGL PISTOL MAG POUCH MCL ANFIBIA

Item number: 7393
Color: 040 black, 331 olive, 346 coyote brown
Size: 10 x 4,5 x 2,5 cm
Weight: 40 g
Material: TPU 420 den Nylon

Multi-caliber magazine pouch made of seawater-resistant TPU 420 den Nylon. The pouch has large drainage holes and is non-slip. Suitable for all common double-row pistol magazines. [1] Bungee cord on the side with cord stopper on the backside [2] Single magazine capacity [3] Skeletonized, waterproof material [4] Skeletonization enables MOLLE attachment for the optional attachment of additional magazine pouches [5] To be used for all common double row pistol magazines [6] Weight gain, weighed 20 sec after collection at soak: 4 g (~10%). [7] MOLLE reverse system [8] Requires 2 MOLLE loops

[1] Best RFID scan protection with TÜV tested RFID blocking material CRYPTALLOY® [2] Shielding against all frequencies and can be used for all cards [3] Space for at least 4 cards [4] Elastic strap closure

RFID BLOCK

Tasmanian Tiger's RFID Block Series wallets, document cases and pouches offer 100% protection from data theft by radio-based readers or NFC smartphones with a readout app. The **Cryptalloy® film** built into the products securely shields radio waves of all commercial frequencies used in the field, making readout virtually impossible.

Possible consequences of data theft:
Identity theft, loss of credit, exposure of behaviour and movement profiles, unauthorised access to business and/or private premises, etc.

TASMANIAN TIGER uses **Cryptalloy®**, a special metal alloy made by Krypton Technologies of Munich, for its RFID Block products. Compared with regular metallised foils, coatings and fabrics of the same strength and flexibility that still allow a proportion of the radio frequency through, **Cryptalloy®** almost completely blocks the signal (remaining signal no longer measurable). **Cryptalloy®** has been tested by SGS/TÜV Saarland Foster GmbH, and is confirmed and certified as suitable for screening against the unauthorised reading of RFID chips (including remote chips, NFC) on commercial frequencies 125 kHz, 13.5 MHz and 900 MHz. What is significant is the protection on frequency 125 kHz. Protection against this frequency guarantees maximum protection against all the usual RFID frequencies.

CRYPTALLOY®
RFID DOCUMENT SAFE

TT WALLET RFID BLOCK

Item number: 7766
Color: 040 black, 331 olive
Size: 14 x 10 x 3 cm

FAIR & TRANSPARENT PRODUCTION

TRANSPARENCY INSPIRES TRUST

Tasmanian Tiger products are made according to European manufacturing standards under high social conditions at our own factories in Vietnam. You are very welcome to visit our factory Mountech Co. Ltd. on any friday and experience how it operates.

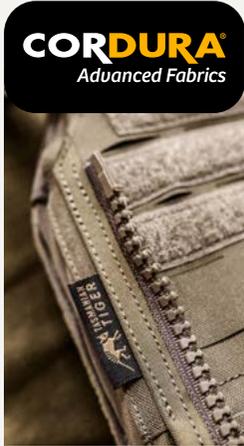

www.openfactory.tatonka.com

MATERIAL OVERVIEW (Selection of materials)

All materials have a PFC / PFAS free DWR finish or are PFC / PFAS free.

CORDURA® 500 DEN (100% polyamide). Made from INVISTA high tenacity, air-jet textured Nylon 6.6 in 500 denier fiber strength. The CORDURA® brand provides fabrics that are recognized for their long-lasting durability and resistance to abrasions, tears and scuffs; they are more durable than other fabrics. CORDURA® fabric offers a superior strength-to-weight ratio, making it a first-choice for durable fabrics.

CORDURA® 700 DEN (100% polyamide). CORDURA® in fiber thickness 700 den combines the high wear and tear resistance of the classic 1000 den fabric with the lightness of the 500 den fabric.

CORDURA® WITH IRR PROTECTION. Tasmanian Tiger manufactures tactical equipment in the color stone grey olive with certified IRR treatment. Both the CORDURA® materials as well as webbing, hook-and-loop fasteners and buckles meet the high German Bundeswehr standards TL 8305-0278 and TL 8305-0281 with regard to the IRR camouflage effect (IRR 650 - 1250nm / 10 - 42%).

The Japanese company **YKK** is the global leader in zipper manufacturing and has a vast array of products in its range. Tasmanian Tiger has used YKK zippers for many years in its collection, in particular the tear-resistant YKK zippers with RC (Racquet-Coil) technology.

The YKK Fastening Products Group is trusted worldwide for impeccable production standards and thorough quality control processes.

The South Korean plastic buckle manufacturer, Woojin, operates a production site in Vietnam, which means resource-friendly transport distances between our facilities. Woojin and Tasmanian Tiger have been working together for so many years we're almost like family. The relationship includes not just development coordination but also exclusive fabrication. Tasmanian Tiger uses **WOOJIN** comp1nts throughout its entire range of products.

The side release buckles, zipper pulls, etc. made by **WOOJIN** have inspired top designers worldwide to innovate the next generation of tactical products.

T-SQUARE RIP FD (100% polyamide). The very tight, special weave of the 210 den fibers makes this fabric extremely stable, but it remains extremely light. By using FD yarn (full-dull) the fabric gets a dull surface.

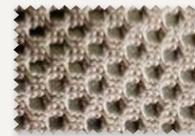

420 HD NYLON (100% polyamide). The classic 420 den Nylon material has proved itself in the „high density“ (HD) version as a good, very flexible basic material. The 420 den yarn gives it a very high tear resistance. The material is made waterproof by the triple PU coating.

TEXTREME 6.6 (100% polyester). The textured polyester material in 600 den threads is robust, colorfast and versatile. PU-coated to achieve a weatherproof finish.

CRYPTALLOY® (aluminium alloy). Products with the specially developed tear-resistant material CRYPTALLOY® offer the highest level of protection against RFID/NFC attacks. The TÜV tested material blocks radio waves on all the usual RFID frequencies and can be used for all cards.

HEAVY MESH (100% polyester). Robust 250D PES mesh fabric, which is used for tear-resistant covers, inner pockets and water passages.

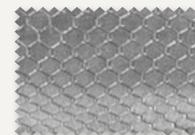

T-COVER TEX (100% polyester). This very light, waterproof material made out of polyester is pleasantly soft to the touch, and is used mainly for rain ponchos, rain covers and stuff bags.

TPU 420 DEN NYLON (100% polyamide). Extremely tear- and abrasion-resistant polyamide material, which can be processed open-edged due to its coating properties.

T-Stretch (100% polyester). This robust, abrasion-resistant and highly elastic material is used for small parts.

210 den Monofilament Micro Mesh (100% polyester). The tightly woven, yet transparent material offers robust performance and does not reflect light, ensuring optimal visibility of the contents. The material is used for inner pockets.

NIGHT CAMOUFLAGE

THE TT PRODUCT RANGE EQUIPPED WITH IRR PROTECTION

Tasmanian Tiger manufactures tactical equipment of the highest level and addresses the security issue of camouflage, under the observation of night vision devices, with an extensive product range.

Chest rigs and plate carriers, mission and medic backpacks as well as magazine pouches, tactical pouches and daypacks are offered in the color **stone grey olive with certified IRR treatment**.

Both the CORDURA® materials as well as webbing, hook-and-loop fasteners and buckles meet the high German Bundeswehr standards TL 8305-0278 and TL 8305-0281 with regard to the IRR camouflage effect (IRR 650 - 1250nm / 10 - 42%).

Milliken
Tegris
Thermoplastic Composites

TEGRIS®

Tegris® is a thermoplastic composite material manufactured by the US company Milliken.

The material offers very high impact resistance and rigidity with low weight.

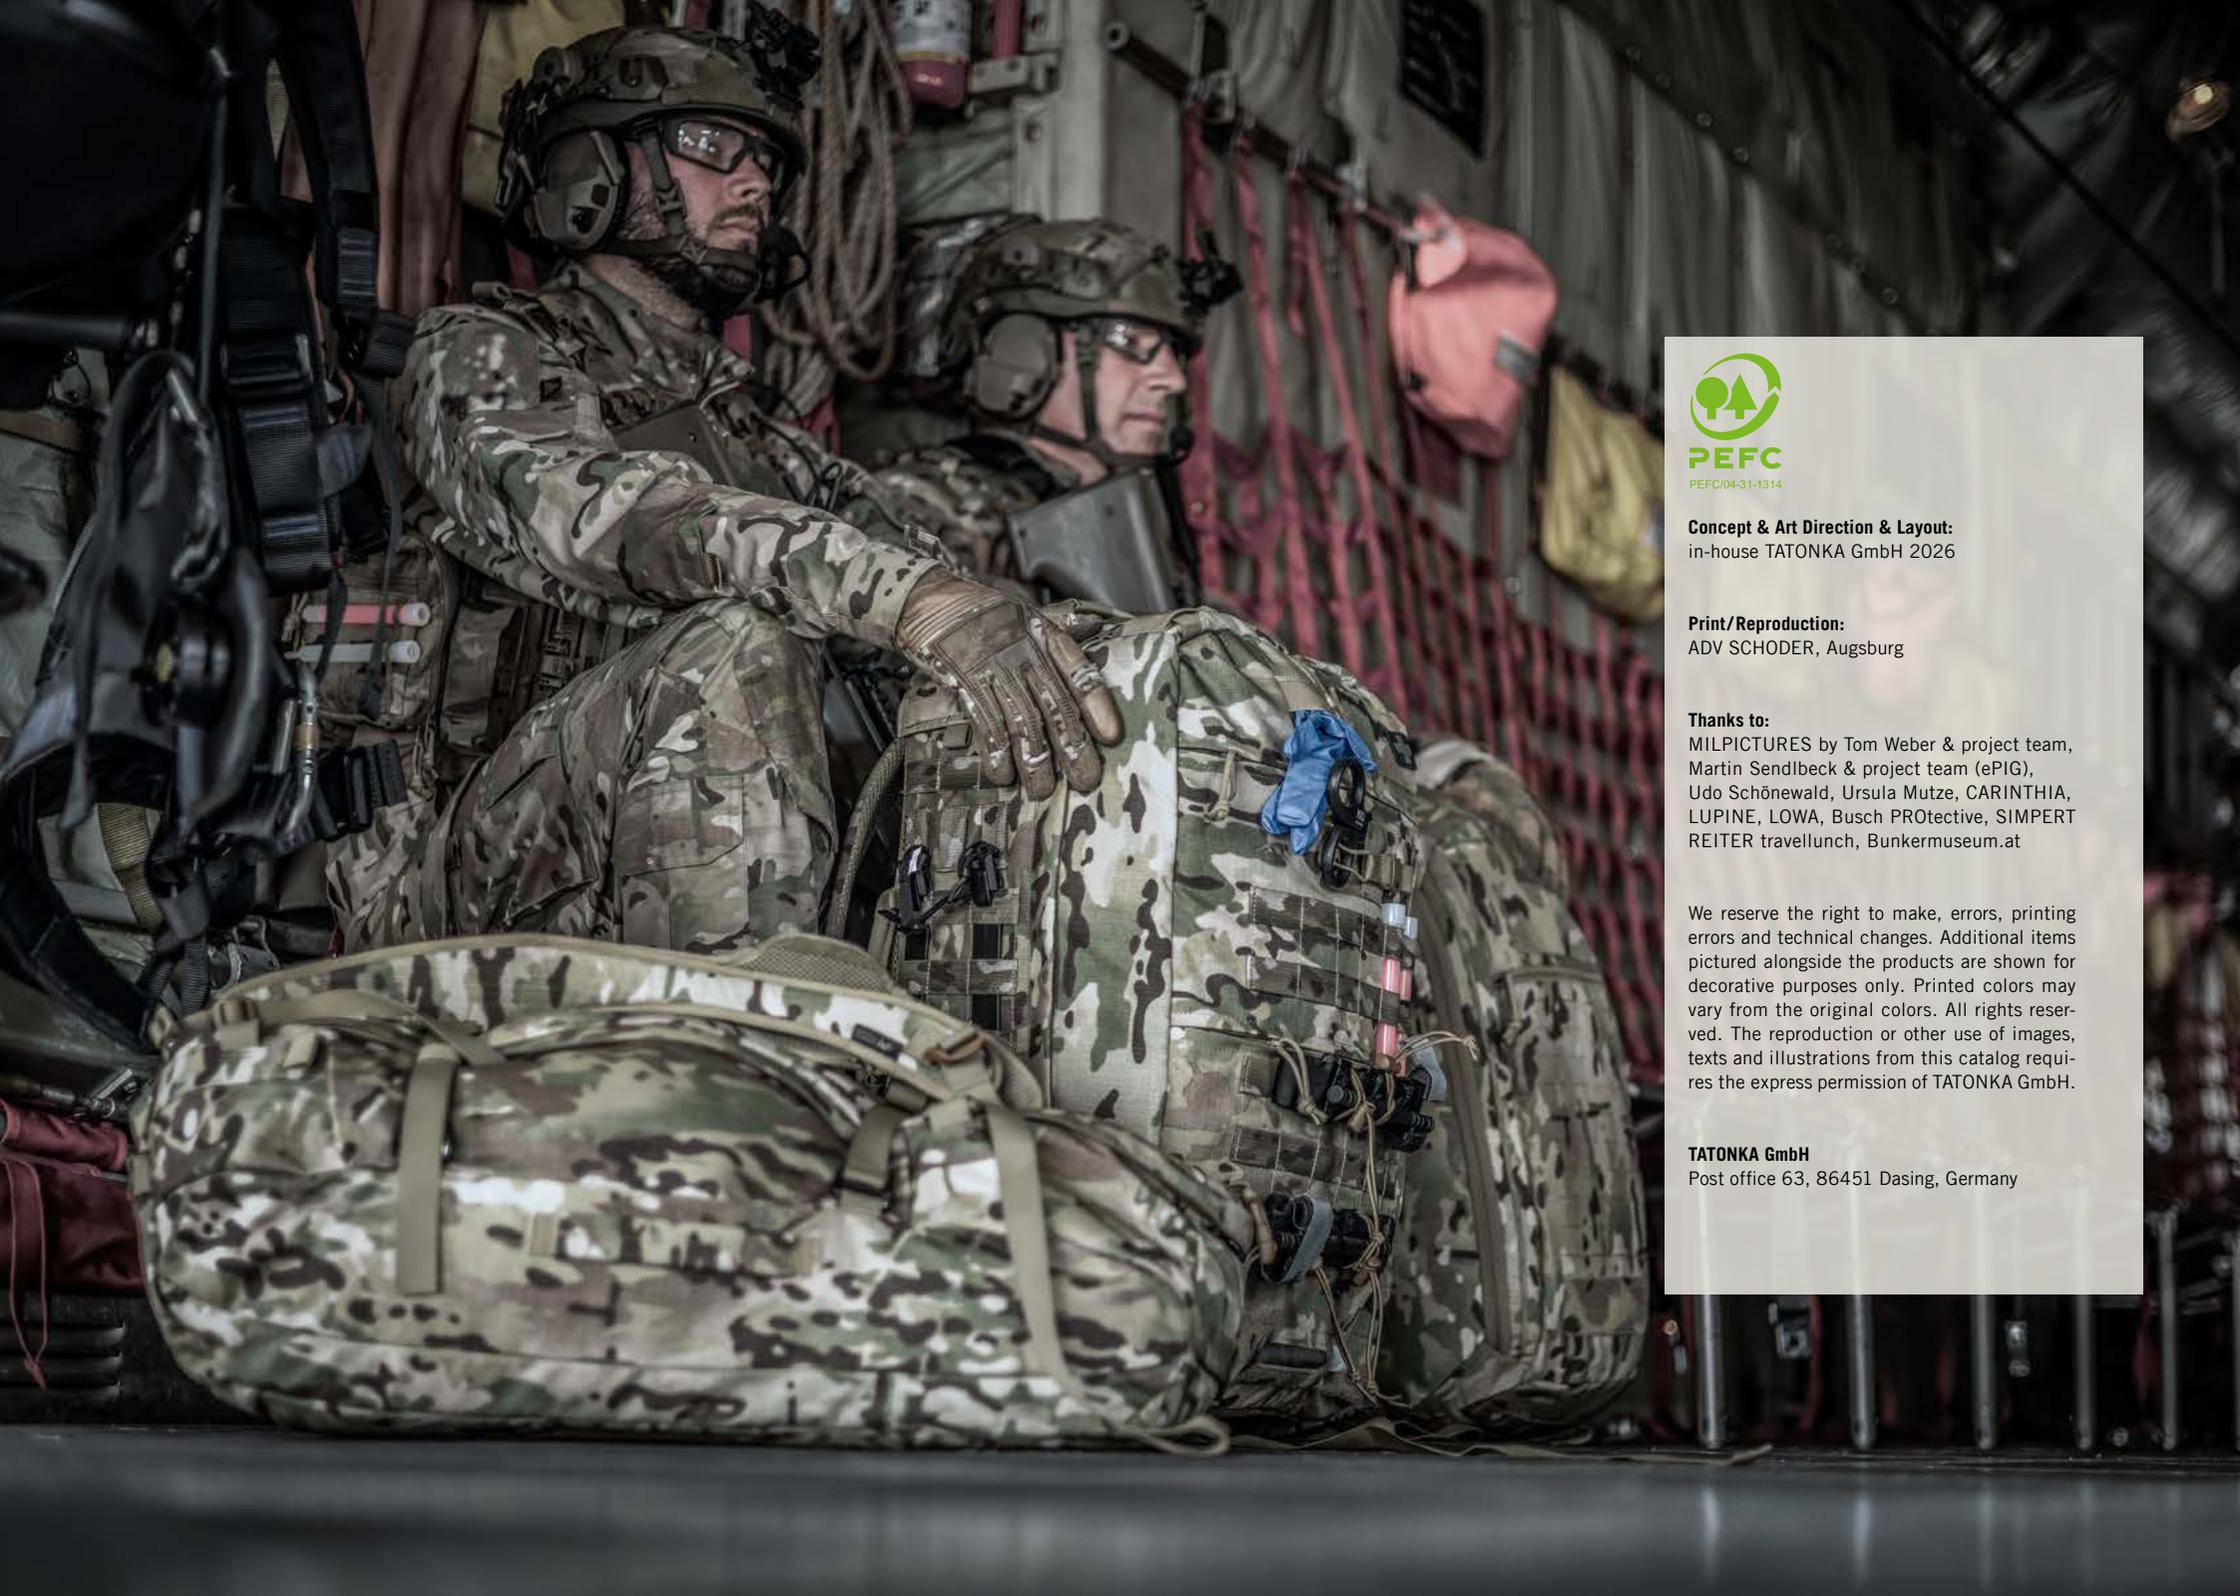

Specially developed **polypropylene yarns** are woven together, fused and formed into sheets in several layers. Tasmanian Tiger uses 8-ply and 12-ply Tegris® material.

TYNY TOOLS®

Tasmanian Tiger is now selling its tried-and-tested range of buckles and spare parts under the Tyny Tools brand.

The plastic comp1nts are still manufactured by long-standing supplier Woojin Plastic from South Korea.
